CB1000R

The bike that changed everything

After 5 consecutive titles in the World Grand Prix Road Racing Series, Honda decided to withdraw and turn toward its primary target: transfer the technology obtained in competition to develop high-performance consumer machines. After an initial attempt with a 450cc machine, Honda released the CB750 Four in 1969. The initial production forecast of 1,500 units a year soon became a monthly figure and then jumped to 3,000 units per month. By pushing the boundaries of performance, reliability and easy handling in motorcycles, Honda created a new class of Superbike. The CB1000R is the modern expression of the same spirit that has guided Honda engineers for decades.

The Dream CB750 FOUR, which hit the market in July 1969

ACCESSORIES

CB650R

Where are these beautiful curves coming from?

One of the most distinctive attributes of the CB650R is its swooping four-into-one exhaust system. This beautiful design is a tribute to another iconic Honda: the CB400F also known as the CB 400 Four. Produced between 1975 and 1977, the CB 400 Four caused quite a stir thanks to its café racer look. Delivering only 37 bhp (28 kW) at 8,500 rpm and 24 lb/ft (33 Nm) at 7,500 rpm, its four-in-line engine was not meant to take the racetracks by storm. Yet, back in the late 70's, some versions upgraded to 492cc were capable of 13,500 rpm and produced an estimated 60 bhp.

ACCESSORIES

CB500F

Is reliability supposed to be boring?

It's not rare to find a CB500F proudly boasting more than 180,000 miles but the longtime favourite of couriers and riding schools is much more than just a workhorse. Started in France in 1996, the CB500 Cup spread across Europe quickly and helped young talents such as Sebastien Charpentier and James Toseland to make a name for themselves on a budget.

CL500

Street Scrambler

Honda has a long history of getting smaller capacity bikes just right for riders around the world. A combination of easy usability, useful engine performance, affordability and distinct individuality equal motorcycles that, over time, come to mean so much to their owners.

The 1962 twin-cylinder CL72 was one such bike. One of the first true 'street scramblers' it was raced, ridden and enjoyed for years. It proved that a lightweight bike with off-road dynamics was great fun around town and, latterly, the high-barred, high-piped style has become an iconic signature for many 21st century riders.

REBEL 1100

Do you really need a clutch lever?

The Dual Clutch Transmission made its worldwide debut for motorcycles in 2010 with the Honda VFR1200F and has been constantly improved since then. DCT allows the rider to focus on accelerating, turning and braking, rather than gear shifting which increases the rider's control. The DCT is completely different from the automatic transmission used by most scooters: it is structurally a conventional 6-speed transmission, just electronically controlled.

ACCESSORIES

REBEL 500

From one Rebel to another?

Since 2013, The Bike Shed London is a motorcycle exhibition like no other celebrating the creative culture around the custom bike scene. It is there that Keita Mikura, the Rebel's Project Leader, was inspired to create a new kind of machine for young riders, leaving free space for further customization.

In 2017, the Rebel concept became reality and reached another level, thanks to the vision and the craftsmanship of 2 Brits: Dan Gold, a tattoo artist and Russ Brown, a custom bike builder.

DESIGN & PROTECTION

HEADLIGHT COWL

08R70-K87-A30

This black headlight cowl boosts the tough stance of the Rebel and protects the rider against the elements. Not compatible with the Meter Visor.

FRONT FORK BOOTS SET

08F70-K87-A31

The fork boots have been tested to protect the tubes against scratches and to ease smooth fork motion. Mounted with the fork covers (sold separately), they accentuate the 500 Rebel's unique attitude.

PILLION SEAT BROWN

08R71-K87-J80ZA

The Pillion Seat in Buffalo Brown is designed to perfectly matched the rider seat of the same colour.

FRONT FORK COVERS SET

08F71-K87-A31

The matt black coating of these front fork covers add to the Rebel's tough image.

CUSTOM RIDER SEAT

08R76-K87-A30ZA / 08R76-K87-A30ZB

The diamond stitched custom rider seat adds to the unique design of the CMX500 Rebel. Its slim-shaped cushion provides 60mm+ thickness to ensure the rider is comfortable.

Available in 2 colours:

- Black - 08R76-K87-A30ZA
- Buffalo Brown - 08R76-K87-A30ZB

TANK PADS

08P70-K87-A30 / 08P71-K87-A30

These rubber-made pads are exclusively designed to fit the tank shape of the CMX500 Rebel and help to protect the paint from scratches.

- Centre pad (08P70-K87-A30)
- Side pads (08P71-K87-A30)

COMFORT

METER VISOR

08R74-K87-A30

The meter visor accents the headlight and improves comfort by protecting the rider's upper body from the wind. Not compatible with the headlight cowl.

12V SOCKET

08U70-K2Y-A00

The 12V socket can be neatly mounted beside the instrument cluster and its rubber cap prevents dirt or water ingress when not in use.

ADJUSTABLE BRAKE LEVER

08U70-K87-A30

By selecting 1 of the 5 pre-set positions, this black aluminium brake lever is adjustable to the rider's preference.

LUGGAGE

GOLD WING / GOLD WING TOUR

When long-distance motorcycling became a reality

Honda's Gold Wing is one of the most iconic names in biking history. Revealed back in 1975, the Gold Wing became synonymous with long-distance motorcycling through the years. The world's longest motorcycle ride, spanning 10 years, over 200 countries and a total distance of 457,000 miles was achieved by an Argentinian rider on a 1980 Honda Gold Wing GL1100.

Manufacturers reserve the right to vary specifications, including colours, with or without notice at such times in such manner as deemed appropriate. Major as well as minor changes may be involved. Every effort, however, is made to ensure the accuracy of the particulars contained in this brochure. Consult your Dealer for details regarding the specifications of any featured product. This publication shall not constitute – under any circumstances whatsoever – an offer by the Company to any individual. All sales are made by the Distributor or Dealer subject to and with the benefit of the standard Conditions of Sale and Warranty provided by the Distributor or Dealer, copies of which may be obtained upon request. While efforts are made to ensure specification accuracy, brochures are prepared and printed several months in advance of distribution and consequently cannot always immediately reflect either changes in specification or in some isolated cases the provision of a particular feature. Customers are always advised to discuss specific details with the supplying Dealer, especially if a selection is dependent upon one of the features advertised. Please contact your local dealer for information and specifications. Please note that the fuel consumption figures provided are results obtained by Honda under standardised testing conditions prescribed by WMTC. Tests are conducted on a rolling road using a standard version of the vehicle with only one rider and no additional optional equipment. Actual fuel consumption may vary depending on how you ride, how you maintain your vehicle, weather, road conditions, tyre pressure, installation of accessories, cargo, rider and passenger weight, and other factors. You accept that if you do go ahead and make a purchase or enter into any kind of transaction, whether for payment or not, you did so entirely in reliance on your own skill and judgement and not on that of anyone else.

RIDE WITH STYLE Read the owner's manual thoroughly. Get to know your machine and its capabilities. Concentration assists anticipation. Observe other road users' movements. Brake in plenty of time. Always wear a helmet and quality kit, ride fit and NEVER after drinking alcohol. Good roadcraft and courtesy identify the skilled and stylish rider. Honda endorse the law that all helmet visors must comply with BS 4110. Visors that transmit less than 50% of visible light cannot legally be used on the road.

CUSTOMISED PARTS IMPORTANT NOTICE

Please read carefully before purchasing any Customised Parts.

The manufacturer and distributor of each Customised Part guarantees and warrants the function, performance, and quality as detailed with the Customised Part. Customised Parts must be correctly attached or fitted in compliance with the laws and regulations.

It is the responsibility of the vehicle owner/user to ensure the Customised Parts are correctly attached or fitted to help ensure the safe use of the vehicle, the safety of the vehicle user and others.

You must read carefully and follow the instructions in the Instruction Manual/Leaflet attaching/fitting as instructed. Please make sure to conduct an inspection prior to riding the vehicle, in addition to regular maintenance checks.

If you have any queries about the attachment/fitting, please contact the dealership where you purchased the Customised Parts.

If you experience any abnormalities during the ride, please stop immediately and arrange for an inspection at a dealership.

In any absence of any negligence or breach of duty by us, the use of such Customised Parts is at your own risk. This will not affect your statutory rights.

- The specifications, etc. of Customised Parts are liable to change without advance notice. Customised Parts may require time for delivery or could be discontinued without advance notice.

- You must read carefully the Instructions and Customised Parts must be attached/fitted correctly as instructed to vehicles and parts on the vehicle as specified in the instructions, and should not be applied anywhere that is not specified.
- To attach/fit the Customised Parts, special treatment (e.g. wiring) may be necessary. Please contact the dealership should you have any queries.
- We cannot guarantee that it is possible to attach/fit a combination of various Customised Parts. Such attachments/fittings may not be possible, or require an extensive level of treatments.
- The Customised Parts are not Honda Genuine parts, therefore although some Customised Parts may be similar to Honda Genuine Parts the Durability, Functionality, Quality etc. may differ.
- By attaching the Customised Parts, there is a risk that engine characteristics or drivability may be affected.
- Certain Customised Parts may require to be attached/fitted at a certified factory or workshop, in this instance we strongly recommend attachment/fitting at a certified factory or workshop. Please contact the dealership for the certified factory or workshop details.
